P R E F A C E .

MARMADUKE TUNSTALL, of Wycliffe, in the North Riding of the county of York, is said to have been born in 1743, and to have died October 11th, 1790. As a memoir of him was given by Fox in that mine of curious information on Natural History, the 'Synopsis of the Newcastle Museum', published in 1827, it is only needful here to mention a few facts referring to this work, which seem to have been unknown to that writer.

In the 'Gentleman's Magazine' for January, 1824 (vol. xciv. pt. i. pp. 14, 15) are printed three letters from LINNÆUS to TUNSTALL.* The first of them, dated (as is stated) "Upsaliæ, 1772, Aug. 13", contains this passage:—

"Dum in eo sum, ut adornem novam editionem tomi 1^mi Systematis, quem typographus efflagitat a me, magnopere exoptarem allegare Ornithologiam tuam, quam dicis te liberali manu ad me misisse; sed meo magno cum dolore nondum excepi: quæso, dicas mihi per quem exoptatissimum opus misisti."

In the second, written on October 13th, 1773, he acknowledges the arrival that day of the book—"Ornithologiam tuam Britannicam"—with certain specimens sent him by TUNSTALL.

In the third letter, bearing date "Upsaliæ, 1773, 21 Nov.", LINNÆUS writes:—"Catalogus tuus de *Avibus Britannicis* certe perplacuit."

TUNSTALL was elected a Fellow of the Royal Society on the 11th of April of the year in which he brought out his work.† His certificate, in the handwriting of his proposer, DAINES BARRINGTON, describes him "of Welbeck Street in the parish of Marybone," and sets forth

* These letters have been reprinted in the 'Mémoires de la Société Linnéenne de Calvados' (1824, pp. 296-300).

† Not in 1777, as stated by Fox (*op. cit.* p. 14).

his qualification as "a gentleman of most general erudition and more particularly versed in every branch of Natural History." His seconder was PENNANT, and the names of five other Fellows of the Society, less known to ornithological fame, follow.

The reader may be reminded that TUNSTALL'S Museum, including his collection of Birds, which was said to have cost him several thousands of pounds,* formed the basis of the flourishing Museum of Newcastle-on-Tyne; and, according to Fox's investigations, *twelve* of the figures of birds in BROWN'S 'Illustrations of Zoology' and *fifty* of BEWICK'S well-known engravings were drawn from specimens contained in it—many of which, owing to the care taken of them, still exist.

The present reissue of TUNSTALL'S work has been executed by means of photolithography. For greater convenience it has been reduced in size from the original folio which measures twenty inches by fourteen and a half.

The Willughby Society

FOR THE

REPRINTING OF SCARCE ORNITHOLOGICAL WORKS.

ESTABLISHED 1879.

COMMITTEE OF SELECTION :

ALFRED NEWTON, M.A., F.R.S., V.P.Z.S.

OSBERT SALVIN, M.A., F.R.S., F.Z.S.

PHILIP LUTLEY SCLATER, M.A., F.R.S., Sec. Z.S.

THE PAST AND PRESENT EDITORS OF "THE IBIS."

DIRECTOR :

W. B. TEGETMEIER, F.Z.S.

SECRETARY :

F. DU CANE GODMAN, F.L.S.

10, CHANDOS-STREET, CAVENDISH-SQUARE, LONDON, W.

THE WILLUGHBY SOCIETY.

At a Meeting of Ornithologists, at 6, Tenterden-street, Hanover-square, on May 7, 1879, Professor NEWTON in the Chair, it was agreed "That an Association should be formed for reprinting certain Ornithological Works interesting for their utility or rarity."

The late and present EDITORS of "The Ibis" and Mr. TEGETMEIER were requested to form an Organising Committee to promote this object, and Mr. F. GODMAN to act as Secretary.

The Committee thus appointed met at 11, Hanover-square, on June 4, 1879, when it was agreed :—

- I. "That this Association be called 'THE WILLUGHBY SOCIETY for the Reprinting of scarce Ornithological Works.'"
- II. "That the Annual Subscription be £1, payable to the Secretary."
- III. "That no Copies of Works reprinted by THE WILLUGHBY SOCIETY be sold."
- IV. "That every Member of THE WILLUGHBY SOCIETY shall be entitled to one Copy of each Work printed in the year for which he shall subscribe."

In order to carry out effectually the object of this Society, it is necessary that the number of Members should be as large as possible: those, therefore, who wish to join it are requested to communicate with the Secretary, Mr. F. D. GODMAN, 10, Chandos-street, Cavendish-square, W.C.

In addition to TUNSTALL'S "Ornithologia Britannica," now issued,

SIR ANDREW SMITH'S papers in the "South African Journal," and "Report" of his Exploring Expedition, and

DESFONTAINE'S "Mémoire sur quelques nouvelles espèces d'oiseaux des côtes de Barbarie," from "Hist. de l'Acad. des Sciences," 1787,

are already in hand for the subscribers of the year 1880; and the

The Willughby Society.

following works are under consideration as suitable to the operations of the Society.

MR. B. H. HODGSON'S papers in the "Indian Review" and "Asiatic Researches."

SAVIGNY and AUDOUIN'S Ornithology of Egypt. The complete text in 8vo.

VIEILLOT'S "Analyse d'une nouvelle ornithologie."

A. A. H. LICHTENSTEIN'S "Catalogus rerum naturalium rarissimarum." Hamburg: 1793.

LEACH'S Catalogue of the Mammalia and Birds in the British Museum.

BARRÈRE'S "Ornithologiæ specimen novum."

MÖHRING'S "Avium genera."

BECHSTEIN'S papers in the "Naturforscher."

PENNANT'S "Faunula Americana."

TEMMINCK'S "Catalogue Systématique du Cabinet d'Ornithologie."

SGANZIN'S "Notes sur l'Ornithologie de Madagascar," from the Mém. de la Soc. d'Hist. Nat. de Strasbourg.

Ornithological papers by RAY and LISTER in the "Philosophical Transactions."

SCHWENCKFELD'S "Aviarium Silesiacum."

Ornithological papers in the Transactions of the Academy of Sciences of St. Petersburg.

Ornithological portion of the Appendices to the "Reise" of PALLAS, S. G. GMELIN, and other Russian Travellers.

CHARLETON'S "Onomasticon."

TURNER'S "Avium &c. brevis et succincta Historia."

BARTON'S "Fragments of the Natural History of Pemsylvania."
